## **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: The instant invention claims a lignocellulosic composite board material and a method to obtain such composite board.

The closest prior art references that relate to the claimed invention are Takahashi'034, Zheng'688 and Drucker'930. The prior art teaches that it is known in the art to make composite board material. However, the prior art of record does not teach or fairly suggest the instantly claimed invention having specific structure and composition.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
